A lesson in itself sublime, A flesson worth enshriding, Is this—"I take no heed of fime, Save when the sun is shining.'

These motto words a dial bore, And wisdom never teaches To human hearts a better love Than this short sentence waches.

As life is sometimes bright and fair, And sometimes dark and lonely, Let us forget its pain and care, And note the bright hours only.

There is no grove on earth's broad chart But has some bird to cheer it; So hope sings on in every heart, Although we may not hear it;

And if to-day the heavy wing Of sorrow coppressing, Perchance a morrow's sun will bring A weary heart a blessing.

For life is sometimes bright and fair, And sometimes dark and lonely ; Then let's forget its toil and core, And note the bright hours only.

We bid the joyous moments haste, And then forget their glitter-We take the cup of life, and taste No portion but the bitter;

But we should teach our hearts to deem Its sweetest drops the strongest : And pleasant hours should ever seem To linger round us longest.

As life is sometimes bright and fair, And sometimes dark and lonely, Let us lorget its toil and care, And note its bright hours only.

The darkest shadows of the night, Are just before the morning, Then let us wait the coming light, . All boding phantoms scorning;

And while we're passing on the tide Of Time's fast ebbing river, Let's pluck the blossoms by its side, And bless the gracious Giver.

As life is sometimes bright and fair, And sometimes dark and lonelyp We should forget its pain and care, "And note its bright hours only.

#### A Victim of Mirthfulness!

I may safely say that the organ of mirthfulness has been the cause of most of the misfortunes of my life. While still a small child I exhibited the propensity of laughing at anything which struck me as being ludicrous, no matter where, when or how it was.

At one time, I went to a funeral with my mother. It was the funeral of a young lady who was very much beloved, and of course lamented. Every one was in tears, when, on the nail on the head more apt than a philosoturning toward a window, I saw two men sit- pher. He once heard a man much praised ting side by side, one of whom was noted for for his "good feelings." . Everybody joined his length of nose, the other because he had and said the man was possessed of excellent none. It was too much for my risibles-I feelings. choked, coughed and sneezed-but it would not do; laugh I must, and laugh I did .- Suddenly a shadow fell across my eyes, and a fleshy protuberance, resembling a barbed book, traveled some distance across my nose, and I heard these words pronounced in my

#### CLanus on Fantly Affairs.

The Brooklyn Eagle has a correspondent who knows asthing or two. Hear him: It is a good thing for a man to pay attention to his family.

Married men generally have. So have I.

It is the natural consequence of getting married. Families, like everything else, are more expensive than they seed to be. Shoes and clothes cost a sight now-a-days, and children have mostly good appetites.

It is their destiny to tear their trousers, and wear out two pair of boots per month; keeping their ma constantly employed, like a besieged garrison, repairing breeches, and their unfortunate pa paying out currency, under strong conviction that there

is nothing like 'leather'-to wear out. I tried copper-toed boots on my heir. The copper wore well, and I have an idea that copper boots would be a good idea, but I could'nt find a metallic shoemaker to carry it out.

Mrs. O'L. also became attached to copper and thought it would be an improvement, and save sewing, if boys' pantaloons were, like ships and tea-kettles, copper-bottomed. The suggestion was A No. 1, but we haven't tried

Copper so ran in my head at the time, that O'Pake called me a copperhead. This was the origin of the term.

Mrs. O'L. is a managing woman. She makes trousers for our son, Alexander Themistocles, out of mine, when I've done with them .- He can get through three pair to my one, ordinarily, and I am obliged to wear out my clothes faster than I used to, to keep him supplied. I once suggested that it might be within the resources of art and industry to make him a

pair out of new material. Mrs. O'L. said positively that it couldn't be done. It would ruin us. She concluded that it was cheaper to cut up a pair I had paid twelve dollars for I subsequently found, upon inquiry, that

new cloth, for that purpose, could have been bought for about two dollars. I ventured to tell Mrs. O'L., expecting a triumph of male foresight over female lack of

## PROCLAMATION

BY THE PROVISIONAL GOGERNOR.

EXECUTIVE DEPARTMENT S. C., SEPTEMBER 4, 1865.

THEREAS it is represented that in many portions of the St te, there is great disturbance and apprehension from lawless persons, who are thieving, marauding and committing acts of violence remote from the military garrisons stationed at the Court Houses; and whereas Brigadier-General Ames, commanding the North-western portion of the State, has suggested the organization of a militia police force in each District of his command, to act in concert with his forces in preserving order and peace in the community; and whereas it is supposed that the other military commanders will have no objections to the aid and assistance on the part of the citizens in suppressing crime and maintaining or der; and whereas, also, it appears that President Johnson has sanctioned and authorized the Pressimilar force in that State, and has forbidden the military authorities there to interfere with such organization :

New, therefore, I, BENJAMIN FRANKLIN

PERRY, Provisional Governor, of the State of South Carolina, do proclaim, order and declare, that there shall be formed and organized in each Judicial District one or more militia companies for a home police, to act under and be anxiliary to the military garrison of such District in pre-District. The companies will consist of a Cap-tain and three Lieutenants and eighty men, seattered over the District so as to be easily accessible from all points where any disturbance may occur. When the companies are formed, they will report, through their Captains, to the respective Brigadier-Generals commanding in South Carolina, and to the Provet Marshals at the respective Court Houses, and from them receive their orders. When arrests have been made, they will turn the offenders over to the civil authorities or bring them before the Provost Court Marshal for trial and punishment, according to the terms of agreement between Generals Meade and Gillmore and myself as to the respective jurisdictions of the civil and military authorities in. South Carolina.

This police guard will be voluntary in its crganization, and should be composed of none but ston at 6 o'clock, A. M., on Wednesday, Friday community, who are willing to render their services promptly when the occasion requires. It is thought that the bare organization of such forees throughout the State, will have a most salntary influence in preserving peace and order and in preventing crime. The evil doers will know that there is a power, ready at hand, to arrest them and bring them to justice. It is to be hoped service. It should be post of horor, as it is, to
